

EXPIRATION DATE:

BigSweetYield™

A cold-processed sweetener, BigSweetYield has been designed to deliver a health-boosting shot of energy that will invigorate your plants. BigSweetYield has proven to increase yields, increase a plant's BRIX level, reduce insect pressure and increase the efficacy of herbicides.

Typical Analysis

ACTIVE PLANT / SOIL AMENDING INGREDIENTS

91.5% Glucose derived from starch hydrosate

Directions for Use:

Foliar application - apply 1 lb. per acre. Mix with sufficient volume of water to achieve desired coverage.

In-Furrow application - apply 1 lb. per acre. Mix with sufficient volume of water to achieve desired coverage.

GENERAL INFORMATION:

BigSweetYield will be influenced by various soil and environmental conditions and should be applied under conditions of optimum plant growth. Optimum conditions are defined as adequate humidity, moderate temperatures, and adequate soil moisture. Optimum conditions for most crops generally occur during morning or late evening hours.

CAUTION:

BigSweetYield may not be compatible with all fertilizer mixes and / or pesticides on the market. Always check compatibility with other products prior to use. In case of contact with eyes, flush with plenty of water for 15 minutes.

CAUTION: Keep out of reach of children
